"I really enjoyed my time here at IAI. I learned a lot of great welding skills to help me be the best I can be in this trade. I'm very happy with my decision to come to IAI and the opportunity I was afforded to invest in myself with their Noble Path student lending Program. I have received several offers of employment since graduation and am eager to begin my career."

"My experience at IAI was nothing short of amazing! And I'll always be thankful to everyone at IAI for helping me succeed. I enjoyed every moment at the school and all the hard work, from weld test to written test, to having the opportunity to do my practicum at Moran Iron Works. They helped me in becoming more confident in my own abilities. It was definitely the best place I could have gone to get my life and career on the right track."
